0:01

hello everyone welcome back to my

0:04

channel

0:06

um I wanted to record this video because

0:08

I've heard about this two days ago and

0:12

actually since I'm traveling I really

0:14

didn't have much time to prepare this

0:17

translation for you about something that

0:19

is very important that is taking place

0:22

in Poland and I heard about this from

0:26

two channels my two favorite channels as

0:29

you know Machi machek's channel YouTube

0:32

channel and Sovereign is the other one

0:34

you can find the links down below this

0:37

video click on more scroll down what it

0:40

is about is actually quite important

0:42

guys

0:43

um I will say in Polish first and then I

0:45

will translate just the

0:48

type of document okay what what is being

0:51

prepared or actually has been prepared

0:53

already

0:54

hasn't been fully approved yet but it's

0:58

jean-dovey

1:01

projects

1:05

which is

1:07

a government bill

1:10

on protection of the population and the

1:13

state of natural disaster of the

1:15

Republic of Poland

1:17

on September 5th this month

1:21

polish prime minister

1:25

um brought this to consideration for

1:29

consideration to the government's

1:31

legislative Center and what it is I have

1:35

many notes here so just bear with me

1:37

today because those are very important

1:39

points and we have to talk about this

1:43

because you want to be updated what's

1:45

going on and this is what's

1:48

um

1:49

what might happen in Poland very soon

1:53

it's actually a draft a governmental

1:58

draft legislation that will be

2:00

introduced in Poland

2:03

and there are a few key points that I

2:05

would like to read to you of course in

2:07

English what it is about

2:09

the major ones will be also at the end

2:12

of this video and

2:14

um yeah let's get through this

2:17

number one is an employer's order to

2:21

delegate employees to the body managing

2:23

the activities carried out in order to

2:26

remove or to prevent the effect of

2:29

natural disaster

2:32

number two

2:34

in order to engage in activity of a

2:38

certain type

2:39

like weapons production for example

2:43

it's not stated there but it's just my

2:45

comment number number three

2:48

total or partial regulation of the

2:52

supply of certain types of

2:56

articles as far as as food or other type

3:00

of Articles number four it is forbidden

3:03

to periodically increase the prices of

3:06

goods or certain type of services so

3:10

we're killing the small businesses here

3:13

everyone

3:13

The Next Step

3:17

number five an obligation to apply fixed

3:21

prices for

3:22

for goods or services that are essential

3:26

to the cost of living for the customers

3:30

number seven

3:32

from the category WTF

3:37

are you ready this is very very serious

3:40

stuff

3:41

obligation to undergo a medical

3:43

examination

3:45

obligation of treatments

3:49

treatments

3:50

and the use of other preventive measures

3:55

and treatments to combat infectious

3:58

diseases

3:59

and the effects of chemical and

4:02

radioactive contamination

4:11

number eight

4:13

obligation to submit to quarantine

4:19

number nine

4:22

maybe it's not an order but this is my

4:24

number nine here

4:26

the obligation to use plant protection

4:29

measures or other preventive measures

4:32

necessary to combat organisms harmful to

4:35

humans animals or plants

4:42

next

4:44

obligation to use measures or treatments

4:47

necessary to combat infectious animal

4:49

diseases

4:52

another one this is my number 12

4:55

actually from the category of WTF

5:01

obligation to empty or secure

5:04

residential premises or other rooms

5:07

so

5:09

when they tell you to leave your place

5:11

you've got to leave your place

5:14

number 13 we continue with WTF

5:18

obligation to perform compulsory

5:21

demolition or demolition of buildings or

5:24

other building structures or their parts

5:32

this is not fake this is actually

5:34

document that's created that's why I'm

5:36

recording this video

5:38

next

5:40

order to evacuate at the specif at this

5:44

at specified time from specific places

5:47

and Facilities

5:50

in order to evacuate at the specif

5:52

specified time from specific places and

5:56

Facilities

5:57

and then the next order or prohibition

6:01

to stay in specific places and

6:03

facilities and specific areas

6:07

next

6:09

Ben on organizing or carrying out Mass

6:13

events

6:14

next

6:16

order or prohibition of a specific mode

6:20

of movement

6:22

so they will tell you

6:24

how you move where you move if you can

6:26

move

6:28

yeah this should be WTF category as well

6:31

right

6:32

next an order for employers

6:36

to post workers at the disposal of the

6:40

body managing the activities in order to

6:43

prevent the effects of natural disaster

6:50

and the last one these are not all the

6:52

points but those are the ones that

6:54

machine was talking about and those are

6:56

probably

6:57

always important but those are probably

6:59

the most important

7:01

it's article 42

7:04

right from the same document and it says

7:08

rest this is quoting everyone okay this

7:10

is not like

7:12

paraphrasing this is quoting translated

7:17

for you

7:18

by me as best as I could

7:22

restrictions on the freedom and rights

7:25

of the humans and citizens in a state of

7:29

natural disaster applying to Natural

7:32

persons and respectively to Legal

7:36

persons and organizational units without

7:40

legal personality having the register

7:43

office and conducting activities in the

7:46

area in which the state of natural

7:48

disaster has been introduced the

7:51

beginning restrictions on the freedom

7:53

and rights of a human and a citizen in a

7:55

state of natural disaster

8:01

so this is what has been presented by

8:06

polish prime minister

8:10

to the government's legislative Center

8:15

no one is talking about it except those

8:17

two channels I've heard of

8:22

yes I wanted to record this video to to

8:24

give you an idea

8:26

um that there is such a document

8:29

that is

8:31

going through the process of legislation

8:34

and once it's approved

8:38

those are the steps

8:41

that are in this plan

8:44

on that note I will end here you're very

8:47

welcome to give your comments

8:49

down below

8:51

um

8:52

I will attach both channels that I

8:56

receive this information from down below

8:58

the video like I said I'm actually

9:00

getting ready for the Meetup now so

9:03

thank you for watching uh

9:06

yeah couldn't be more obvious right

9:09

make sure to give the like I appreciate

9:13

for a little effort I put in this while

9:17

traveling in UK

9:20

lots of love everyone and I will be back

9:24

with another conversation with another

9:26

guest very soon and keeping you posted

9:30

take care guys
